

## ENCEPHALITOZOOM CUNICULI - CHROMOSOME 1 MAP

Colour code (protein-coding genes)

Metabolism: orange - Energy: red - Cell growth, cell division and DNA synthesis: light green - Transcription: yellow - Protein synthesis: dark purple - Protein destination: magenta - Transport facilitation: dark green - Intracellular transport: marine blue  
Cellular organization and biogenesis: brown - Cellular communication and signal transduction: sky blue - Cell rescue, defence, cell death and ageing: pink - Unclassified: black - Hypotheticals: grey - Unknown: white
